

## **District One Game Reports – Game Fees Policy (8.2022)**

*The approved policy from the PIAA District One Committee suggests that tickets should be sold at all contests where permitted. However, when circumstances such as fencing on fields, do not support ticket sales please check with the District One Office before you decide not to sell tickets. Tickets must be sold for all double header contests. The District Committee is seeking to enhance revenue by selling tickets at each game and control expenses by determining the number of game helpers based on estimated attendance. District One does provide a **recommended maximum amount for game help expenditures as listed below**. The District One Office and Sport chairpersons will work with game managers to accommodate special circumstances such as large crowds, local rivalries etc. Games with limited attendance should have reasonable personnel costs particularly for security.*

### **District One Playoff Contests – Tickets Sold (Home Sites / Higher Seeds)**

- District One will no longer use cash sales – All tickets will be sold via an electronic ticket service.
- Host school will prepare the District One contest management financial forms.
