

RESPONSIBILITIES FOR FIELD HOCKEY GAME MANAGERS

Thank you for offering your field to District One for the Field Hockey Tournament and acting as a game manager for this event.

We ask that you review the following duties so that a safe environment can be provided for our players and coaches.

- Contact the teams involved to verify the starting time and the time permitted for warm-up (45 minutes).
- Review all lines on the field to ensure that they meet National Federation standards and check goal cages for proper placement.
- Introduce yourself to coaches and officials.
- Facilitate in the solution of any problems that arise.
- Provide a table, chairs, a clock for the timer and a horn.
- If a visible scoreboard is used, that will be the official clock and it will run down to 0 and the horn will end the half/game.
- The field hockey official who is designated as the timer will have a hand held clock. If a stadium clock is used the field hockey timer will be the back up. If not, she/he will be the official timer and will signify the end of the half/game with a horn.
- Escort officials from the field following the game.

Once again many thanks for your time and commitment to District One. We appreciate all your efforts.
